Paper bag puppets

You will need:

- A paper bag, or a piece of paper folded and secured with one side open for a hand.
- Felt tip pens
- Collage materials (optional)

Make your puppet:

Draw a face on your bag.

Draw hair / hat on the other side so that the whole bag is coloured.

Use collage materials to add detail.

Put your hand into the puppet and start a conversation!

Think about:

What would be the first thing that your puppet says?

Where would they be?

Who would they say it to and what might they say next?

Create a scene / play for your puppet, or make a whole cast and get the family to join in!
